

DECK

Monitoring

Monitoring solutions for commercial and residential solar electric contractors, PPA providers, and system owners.

FEATURES:

Revenue Grade System Monitoring – Utility grade, verifiable data for billing, reporting to agencies, SREC reporting, and analytics.

Web, Kiosk, and Plasma display integration – Highly customizable and visually interactive web view and optional Kiosk integration. Perfect for integration into websites, store lobbies, and large screen displays.

Advanced Performance Monitoring – Our powerful data center allows users to view detailed analysis of system performance. Interactive graphs bring the power to troubleshoot and benchmark systems to the user's fingertips. Our high end data gateway records a multitude of information including; generation, load, irradiance, volts, amps, cell temperature, weather data, and wind direction / speed.

Demand Monitoring – Our demand monitoring package allows you to accurately monitor your facility's energy usage in fifteen minute intervals. The package is fully integrated with the standard flash view including detailed graphing capabilities. This information facilitates energy conservation by identifying high energy use periods.

System administration – Our powerful administration panel allows contractors to quickly get an overview of the performance of all their systems at once (and system owners of their individual systems). Advanced notification options allow you to be notified instantly of errors, alerts and track system performance remotely.

KEY BENEFITS:

Customizable - Easily configurable for customer choice of colors / co-branding / and kiosk integration.

Integrated Pricing - The purchasing and installation process is simplified and streamlined. Our basic package includes flash views and contractor admin panels at no extra charge.

Power and Beauty – The standard DECK system is a combination of powerful commercial grade features and a stunning user interface. Perfect for public kiosks, web pages, and in-facility displays.

Customer Service - Custom alarms ensure installers instantly know about any performance issue. Keep connected to your customer base.

DECK

Monitoring

Monitoring solutions for commercial and residential solar electric contractors, PPA providers, and system owners.

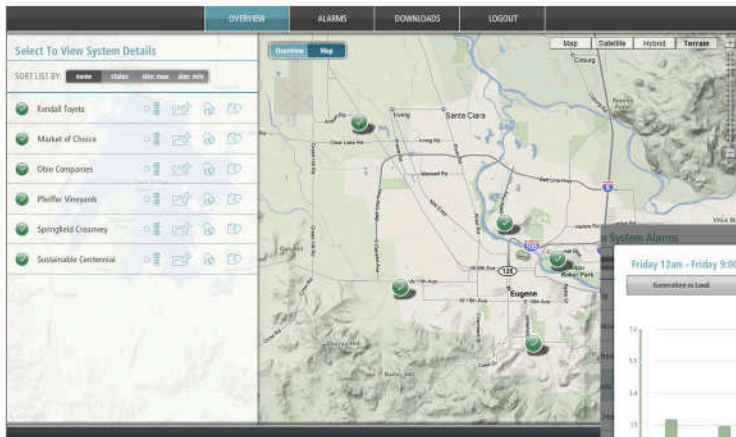

Dashboard - Energy meters displaying current generation, historical data, weather data, and equivalencies.

Educational Information - Visitors to your website or facility can learn about how your solar system works.

Custom Pages - Each deployment comes standard with custom pages, describing your specific installation and system details.

Administration Panel - Keep track of your valued customers! System owner and contractor access to view multiple systems, alarms, down-loadable historical data, advanced performance visualizations, and case notes for each project.
